RE: Mandatory Cardiac Update Assignment

There will be a mandatory “Cardiac Update 2018” assignment for all EMT-Bs, EMT-Ps, ECRNs, and ECPs in the Region XI EMS System that will begin on December 10, 2018 and must be completed by January 11, 2019. This education will be worth one hour of continuing education.

For EMT-Bs and EMT-Ps, this education is available on the Region XI EMS Target Solutions (TS) webpage, and you should receive notice of the assignment through the email that you have linked to your TS account. You may review and update your account and organization settings under ‘My Profile’. Also, please ensure that your current EMS license is listed under ‘My Credentials’, including the expiration date. These fields ensure that you will receive notification of the mandatory Region XI continuing education assignments. Instructions for this can be found on the Target Solutions site bulletin board. If you do not receive the assignment notification, please contact your Resource Hospital.

For all ECRNs and ECPs, this education will be provided through your EMS Coordinator or EMS Medical Director.

The implementation date for these policy updates is **Friday, January 18, 2019**. All Region XI EMS providers, ECRNs and ECPs will be suspended from Region XI if the education has not been completed by this date.

For questions, please contact your Resource Hospital EMS Coordinator.
